

New World Order

Saint

United Nations scheming
They're in the headlines glare
And we're just speculating where we'll go from here
World markets crashing daily
Giving into our fears
And we don't know just what Obama-nations breeding here

Oh, here comes the new world order
The devil's on his shoulder
Start running for the boarder
Oh, here comes the new world order
Babylon is fallen
Start running for the boarder

World governments colliding
Foot in the end time snare
We've beat the drum of reason, no one seems to care
Terrorist militias mounting
The words forgotten tears
And now the end is at the door, it's at the door insisting

Oh, here comes the new world order
The devil's on his shoulder
Start running for the boarder
Oh, here comes the new world order
Babylon is fallen
Start running for the boarder

"...the opportunity to forge for ourselves and for future generations
a new world order" *
"??? ??? ???"
"??? ??? ???"
"And one world currency, and one world financial system is the end ga
me." **

Oh, here comes the new world order
The devil's on his shoulder
Start running for the boarder
Oh, here comes the new world order
Babylon is fallen
Start running for the boarder
Oh, here comes the new world order
The devil's on his shoulder
Start running for the boarder

* George Bush, 16.01.1991
