

## Sinner Peace

Saint

Through the sleepless night and life's constraints as death creeps slowly  
You watch the pages fade away  
As lighting streaks across the sky that's burning slowly (slowly)  
You know your life could end today

He's the sinner peace  
The Knight that's shining full of glory  
He's your inner peace  
He casts His light as He goes before me

There's a distant scare reminds me of a life before you  
Reminiscent of the day  
A troubled time I walked and darkness does surround me (surround me)  
Through jaded paths I found my way, yeah

He's the sinner peace  
The Knight that's shining full of glory  
He's your inner peace  
He casts His light as He goes before me  
He's the sinner peace  
The Knight that's shining full of glory  
He's your inner peace

He's the sinner peace  
He's your inner peace /x2

He's the sinner peace
