

Look at me now, do I look good?
You can't tell if you're [?]

I been at it for days
Tryna maintain all the pay
The Prada's been taking away
You know that my drip is talent
Baby girl say she likes talent
Baby girl, wait, can you manage?
Bedroom late-night balance
Lemme specify, can't say
I been on the field playing games, Kante
I been wilding out on the gram like Kanye

Baby, say my name right, don't call me Santay
All my tracks clean, but we still get nasty
Never waste time, no time for the child play
Leather jacket on, now I'm feeling like blaze

Said she like me cah I'm banging out Sade
All day, all day, all day, all day
Non-stop, man, I'm playing it all day
Said she like me cah I'm banging out Sade
All day, all day (All day, all day), all day, all day
Non-stop, man, I'm playing it all day
Said she like me cah I'm banging out Sade
All day, all day (All day, all day), all day, all day
Non-stop, man, I'm playing it

I been OT, I been tryna get money up
Money on me, now my friends done double up
I been in that Vito, boss man buckle up
Next man see da police, come trouble us
Never do piggy in the middle for a bag
One night, one time, three songs, ten racks
Man, I love this game, man, they all want Sainte
I just wanna maintain, wanna flex in the rain
Wanna dash this chain, push start in range
Crash course insane
I just want a bad- (What?) with the vocal range
Waistline and face
Nice one, good brain, I don't even wanna flex-flex-flex, but

Baby, say my name right, don't call me Santay
All my tracks clean, but we still get nasty
Never waste time, no time for the child play
Leather jacket on, now I'm feeling like blaze

Said she like me cah I'm banging out Sade
All day, all day, all day, all day
Non-stop, man, I'm playing it all day
Said she like me cah I'm banging out Sade
All day, all day (All day, all day), all day, all day
Non-stop, man, I'm playing it all day
Said she like me cah I'm banging out Sade
All day, all day (All day, all day), all day, all day
Non-stop, man, I'm playing it
