

Black Sun Black Moon

Salem Al Fakir

black sun black moon you left us all to soon now we call
it the day of black sun black moon
black sun black moon you left us all to soon and
now we call it the day of black sun black moon

two children growing up with the picture on the wall
showing who he once was proud and standing tall and with
his open arms he showed us how he could be standing
beside him it was not easy to see

black sun black moon you left us all to soon
and now we call it the day of black sun black moon black
sun black moon you left us all to soon and now we call it
the day of black sun black moon

it's time to tell the world our true angle is gone
and for us who are staying we tell his story on and on it
wasn't your turn we all agree and say no my dear beloved
friend I'm so sad you had to go

black sun black moon you left us all to soon
and now we call it the day of
black sun black moon black sun black moon you left us all
to soon and now we call it the day of black sun black
moon black sun black moon you left us all to soon we will
remember the day
