

## It Gets Better

Salem Ilese

So lovesick, my shrink she thinks I might be contagious  
Think I should stay inside, but distance makes me anxious  
I know I'll heal in time but healing comes in stages  
With me I'm never alone

If there's a will, there's a way  
If there's a heart, then it can break  
But not today, not today, not today

I heard it gets better (ah-ah-ah)  
It won't hurt forever (ah-ah-ah)  
I heard we'll get better (ah-ah-ah)  
But we've gotta learn to fall apart  
To learn to come together

I'll try on all my clothes and eat 'til I can't fit 'em  
Surprise my mom and call for once, to say I miss her  
Know there's still miles to go but miles can feel like minutes  
We're far away but we're close

If there's a will, there's a way  
If there's a heart, then it can break  
But not today, not today, not today

I heard it gets better (ah-ah-ah)  
It won't hurt forever (ah-ah-ah)  
We'll get better (ah-ah-ah)  
But we've gotta learn to fall apart  
To learn to come together

We've gotta learn to fall apart  
To learn to come together
