

Snowglobe

Salem Ilese

I wanna put us in a snow globe
Keep this feeling safe and sound
Lock it up inside a photo
So that in 20 years from now

I'd have the way you open presents
Without making any tears
And the nickname that you call me
While you're tucking back my hair

The day I met your family
Oh, I've never been so scared
I was swearing like a sailor
But you didn't seem to care

And I know nothings perfect
But this moment's pretty close

I wanna put us in a snow globe
Keep this feeling safe and sound
Lock it up inside a photo
So that in 20 years from now

Even if the love is gone
And we've both moved on
And the warm fuzzy feelings all went cold

At least we'd have our
Snow globe
At least we'd have our
Snow globe

It's the way I get distracted
When we're tryna play charades
How am I supposed to focus
While I'm looking at your face

It's kissing under mistletoe
And tasting candy canes
If it all just falls away
At least we'll have this holiday

I wanna put us in a snow globe
Keep this feeling safe and sound
Lock it up inside a photo
So that in 20 years from now

Even if the love is gone
And we've both moved on
And the warm fuzzy feelings all went cold

At least we'd have our
Snow globe
At least we'd have our
Snow globe

I know nothings perfect

But this moment's pretty close
I know the future is uncertain
But I'll take this memory home
