

Taylor Made

Salem Ilese

Taylor Swift prepared me for this
For you to come and wreck all my plans
For you to take my heart in your hands
And squeeze too tight

Taylor Swift prepared me for you
I don't know how but she always knew
Our love story wouldn't quite come true
But I'll be fine

'Cause she told me how to shake it off
Crying all my makeup off
Showed me that a breaking heart keeps a beat
Taught me how to follow some wilder dreams

I'm Taylor made, make no mistake
You can't break me down
I'm walking out of your trouble now
I'll lose my pain like tears in rain
And all by myself, I'll end the game
Yeah I'm so proud I'm Taylor made
I'm Taylor made

Taylor Swift prepared me for this
Yeah ever since I was a little kid
I knew white horses wouldn't do the trick
And forever is short-lived

You walked in with a big red pen
And signed your name where you shouldn't have
You filled a space that I can't get back
But it's part of the portrait

I'm Taylor made, make no mistake
You can't break me down
I'm walking out of your trouble now
I'll lose my pain like tears in rain
And all by myself, I'll end the game
Yeah I'm so proud

Romeo baby, I'll be better off alone
Won't be waiting for you by the telephone
Don't need saving, not with who I grew up on
Who I grew up on

I'm Taylor made, make no mistake
You can't break me down
I'm walking out of your trouble now
I'll lose my pain like tears in rain
And all by myself, I'll end the game
Yeah I'm so proud I'm Taylor made
