

# Bleed For Me

Saliva

All I ever wanted  
was to be at your service  
but now I'm alone  
cause you were here and you're gone

And all I ever wanted  
was to feel I had a purpose  
but now that's all gone

But if you could give me  
just one love  
just one life  
just one chance to believe in mine  
just one love  
just one life  
you'd bleed for me  
and I didn't dare to notice you  
now I'm stuck  
out on a line.  
Bleed for me  
I didn't care to be with you  
now you're stuck in my mind

All I ever wanted  
was to be what you needed  
cause something so strong  
it could never be wrong.  
And all I can promise  
is to say what I'm feeling  
We've made it so long

But if you could give me  
just one love  
just one life  
just one chance to believe in mine  
just one love  
just one life  
you'd bleed for me  
and I didn't dare to notice you  
now I'm stuck  
out on a line.  
You'd bleed for me  
I didn't care to be with you  
now you're stuck in my mind

Just one love in my life...  
You'd bleed for me  
and I didn't dare to notice you  
now I'm stuck  
out on a line.  
Bleed for me  
I didn't care to be with you  
now you're stuck in my mind
