

## Crows

Saliva

Your spirit's erased  
It's so obvious  
What you are  
There's nothing to taste  
Nothing to love  
You are

Dead on the inside, inside  
Dead and gone  
Dead on the inside, inside

Broken from end to end  
Short-fused and wearing thin  
I couldn't fix you  
But I tried, I know I did  
Dying to live again  
We need to let this end  
I'm not bowing to  
The crows inside your head

The crows inside your head  
The crows inside your  
The crows inside your head

Your gaslight crusade  
Parading around  
My heart  
(It's killing me slowly now)  
And I'd bleed to death  
Just to know the truth you hide  
But you keep me fed with every lie  
It keeps me alive

Broken from end to end  
Short-fused and wearing thin  
I couldn't fix you  
But I tried, I know I did  
Dying to live again  
We need to let this end  
I'm not bowing to  
The crows inside your head

Oh, how can I fix you?  
How can I fix you now?  
How could I fix you now, oh?

Broken from end to end  
Short-fused and wearing thin  
I couldn't fix you  
But I tried, I know I did  
Dying to live again  
We need to let this end  
I'm done bowing to  
The crows inside your head

How can I fix you now?  
I'm done bowing to

The crows inside your head

The crows inside your head  
The crows inside your  
The crows inside your head
