

## Devil's World

Saliva

It's like trying to stay sober in a river of wine  
Or trying to find a silver lining where the sun won't shine  
We all die for the diamonds, the gold and the pearls  
And hell, it's hard to find heaven in the devil's world

Lord knows I've tried  
To right all the wrongs, but the wrongs feel so right  
Lord, let me follow your word  
'Cause it's hard to find heaven in the devil's world

You can call me a sinner, but I was born this way  
In the land of lost angels where the darkness plays  
Every day a new demon, every night a new girl  
And it's hard to find heaven in the devil's world

Lord knows I've tried  
To right all the wrongs, but the wrongs feel so right  
Lord, let me follow your word  
'Cause it's hard to find heaven in the devil's world

Lord, won't you make it make sense now?  
What do you want from me now?  
If this is your plan  
Help me understand

I've been searching for answers for so many years  
I believe there's a Jesus, but I ain't found him down here  
So won't you send down a sign and show me which way to turn?  
'Cause hell, it's hard to find heaven in the devil's world

Lord knows I've tried  
Lord knows I've tried  
To right all the wrongs, but the wrongs feel so right  
Wrongs feel so right  
Lord, let me follow your word  
Follow  
'Cause it's hard to find heaven in the devil's world

'Cause it's hard to find heaven in the devil's world  
Why did you leave us in the devil's world
