

Epidemic

Saliva

Asphyxiation, your mouth is dry
Body's helpless as you smoke the sky
A fallen angel, a devil in disguise

Hey, go on and tie your belt
Hey, as you slowly kill yourself

Another needle, you melt the spoon
Burn the soul that's taken you
Self inflicted, you color your own wounds

Hey, go on and tie your belt
Hey, as you slowly kill yourself

No escape soon you'll be gone forever
The ashes in the air you breathe has taken over all you see
You'll feel no pain as long as you can taste it
So far away from hell, you are so blind

No escape soon you'll be gone forever
The ashes in the air you breathe has taken over all you see
You'll feel no pain as long as you can taste it
So far away from hell, you are so blind
