

# Gone Away

Saliva

How can I tell you how I feel  
When you keep pushing me away  
On my knees I'm crawling  
Begging you to let me stay  
Maybe I'm wrong for thinking  
That you still want some part of me  
Or maybe I'm close to losing  
Everything that's meant to be

Am I so wrong  
Am I too far gone

So you're leaving me with my regrets  
Let me feel the way you left me dead  
Now that you have gone away  
Screaming out your name from this empty bed  
Living in hell with the things I've said  
Now that you have gone away  
Now that you've gone away

How can I face myself this way  
For all the damage that I've caused  
And in this house I'm haunted  
And the ghost of you is lost

For what I've done  
Am I too far gone

So you're leaving me with my regrets  
Let me feel the way you left me dead  
Now that you have gone away  
Screaming out your name from this empty bed  
Living in hell with the things I've said  
Now that you have gone away  
Now that you've gone away

Now that you've gone away

So you're leaving me with my regrets  
Let me feel the way you left me dead  
Now that you have gone away  
Screaming out your name from this empty bed  
Living in hell with the things I've said  
Now that you have gone away  
Now that you've gone away

Now that you've gone away
