

How To Be Human

Saliva

Everyone stands on guard
Awaiting their doomsday
The world is unruly and all eyes
All eyes are open wide
Every day is the same
Insanity in our veins
We just won't change
When all we do is look away

We call this hell a home
Heavy heads we're sinking stones
Nobody blinks
No one sees nothing wrong
The world we knew is gone
It's like we've never known
Just how to be
How to be human

Starving for martyr life
We're killing our brothers
And kissing our knives call it progress
Walking to our demise
Somebody say something
Oh, cause soon or later
A price will be paid no one cares
It's someone else's problem never theirs

We call this hell a home
Heavy heads we're sinking stones
Nobody blinks
No one sees nothing wrong
The world we knew is gone
It's like we've never known
Just how to be
How to be human

It's us verses us
It's in our DNA
It's kill or be killed
As if we live for pain
When there's no tomorrow
Nothing left to claim
Maybe we'll feel ashamed
Maybe we'll feel ashamed

Or we won't feel a thing

We call this hell a home
Heavy heads we're sinking stones
Nobody blinks
No one sees nothing wrong
The world we knew is gone
It's like we've never known
Just how to be
How to be human

It's us verses us

It's in our DNA
It's kill or be killed
And we don't feel a thing
