

Lost

Saliva

Sleepless nights, tangled in misery
Can't believe the damage I've done
Endless fight and I am the enemy
Save me from what I've become

I've awoken but I don't how I'm alive
I deserve to be buried underneath dark skies
Am I dreaming from my grave
Or have I fallen so far away
But today I found myself lost for the last time
Lost for the last time

So long, goodbye, yesterday's just a memory
Something I could never change
Watch it all slip away and the stain still remains
But sometimes we need to feel the pain

I've awoken but I don't how I'm alive
I deserve to be buried underneath dark skies
Am I dreaming from my grave
Or have I fallen so far away
But today I found myself lost for the last time
Lost for the last time

I've awoken but I don't how I'm alive

I've awoken but I don't how I'm alive
I deserve to be buried underneath dark skies
Am I dreaming from my grave
Or have I fallen so far away
But today I found myself
Today I found myself lost for the last time

Lost for the last time
Lost for the last time
