The Warning

Saliva

What happened to the all American dream?
Everyone's a psycho living in fantasy
A narcissistic calls for paranoid culture
Like schizophrenics want media exposure

In a world so full of hate
We've gotta stand for something
We've gotta spread the warning
And through the lies, truth and divide
We've gotta stand for something
We've gotta spread the warning

Television, social media wars
I'm fucking sick, I wanna settle the score
Another preacher calls for paranoid culture
Propaganda is political torture

In a world so full of hate
We've gotta stand for something
We've gotta spread the warning
And through the lies, truth and divide
We've gotta stand for something
We've gotta spread the warning

Together we'll fight
Together we'll fall
We've gotta stand for something
We've gotta spread the warning
Together we'll fight
Together we'll fall
We've gotta stand for something
We've gotta spread the warning

Here is your chance
To make this end
Can you feel it?
You have to
Open your eyes
Open your eyes

In a world so full of hate
We've gotta stand for something
We've gotta spread the warning
And through the lies, truth and divide
We've gotta stand for something
We've gotta spread the warning

Together we'll fight
Together we'll fall
We've gotta stand for something
We've gotta spread the warning
Together we'll fight
Together we'll fall
We've gotta stand for something
We've gotta spread the warning

Open your eyes

Open your eyes
Open your eyes
