

# Toxic

Saliva

I just keep spiraling  
You leave me with no choice  
Manipulated by your games  
It makes me want you even more  
I'm just a ghost in a shell  
Got demons making for me  
Artificial intel  
I'm starving for some sin again  
Addicted like a drug and I don't wanna  
(Let you go)

You're toxic, but I love it  
It makes me feel alive  
I keep coming back for more  
You're heartless, but it's worth it  
I used to be in love  
But now you're bleeding me dry

Toxic, toxic toxic, toxic, toxic toxic  
Toxic, toxic toxic, toxic, toxic toxic

You had me thinking  
"You're so fucking perfect."  
And all the pieces everywhere  
Are now just broken  
I just keep spiraling  
I just keep spiraling down

You're toxic, but I love it  
It makes me feel alive  
I keep coming back for more  
You're heartless, but it's worth it  
I used to be in love  
But now you're bleeding me dry

Toxic, toxic toxic, toxic, toxic toxic  
Toxic, toxic toxic, toxic, toxic toxic

I'm giving you  
You're the poison underneath my skin  
Again and again  
You're the reason I can't resist  
I just keep spiraling  
I just keep spiraling down

You're toxic, but I love it  
(But I love it!)  
It makes me feel alive  
I keep coming back for more  
You're heartless  
(You're heartless!)  
But it's worth it  
(But it's worth it!)  
I used to be in love  
But now you're bleeding me dry
