

# When I'm Gone

Saliva

I'm so far from everything I love  
And I'm guilty for all I've done  
Am I cancer like a fucking disease  
I've become everything I never thought I'd be  
I've been wasted, burned all my dreams  
Now these ashes are all I see  
From the bottle and the gasoline  
It's too late I'm addicted to this misery  
You know

Take away this loaded gun  
Forgive me for the wrong I've done  
Tell my mother that I'm sorry  
I don't want to live this way  
I don't want to dig my grave  
In the end will I be forgiven  
When I'm gone

I'm helpless, a stranger inside  
I feel reckless but I ain't ready to die  
These voices screaming in my head  
Keep telling me that I should be dead  
My sorrows they come on done  
And tomorrow it may never come  
I've gotta fix this, I need a remedy  
Before it's over, before it's too late for me

Take away this loaded gun  
Forgive me for the wrong I've done  
Tell my mother that I'm sorry  
I don't want to live this way  
I don't want to dig my grave  
In the end will I be forgiven  
When I'm gone

I've gotta fix this  
I need a remedy  
Before it's over  
Before it's too late for me

Take away this loaded gun  
Forgive me for the wrong I've done  
Tell my mother that I'm sorry  
I can't live this way  
I don't want to dig my grave  
In the end will I be forgiven  
When I'm gone  
When I'm gone  
When I'm gone
