

Clear Light

Sally Oldfield

Clear light, Clear light,
Clear light, Clear light,
Spirit of the night you're calling me like summer
rain moving on the water,
Clear light,
Deep in the dark I can feel the spark of the
source of light moving on the river,
Clear light,
High upon the hill the moon is still and
it's shining down and the earth is sleeping
Clear light,
My heart is still as the earth awakes and
the rising sun is spilling over the mountain.
Clear light, Clear light, Clear light,

Spirit of the night you're calling me like summer
rain moving on the water,
Clear light,
Deep in the sky so far and high I can hear the words
"create creation"
Clear light,
High on the hill the moon is still and
it's shining down and the earth is sleeping
Clear light,
My heart is still as the earth awakes and
the rising sun is spilling over the mountain.
Clear light, Clear light, Clear light.
