

Assault // Split Lip

Saltwound

I can't believe how far a friend can fall
Slip away, slip away after you siphon all you want
Drag my fucking name through the dirt, through the mud
I'll break your fucking bones til you're choking on your blood

There's no way you're walking out of this
I'll throw your limp fucking carcass
In a ditch (motherfucker)
Lotta talk
But no balls
Sit there like a bitch
Less you wanna get your head chopped
Off

Lotta talk
But no balls
Sit there like a bitch
While I kill everyone you love

Suffer
I wanna watch you bleed out
Victim-playing just
Crying for the clout
Cock that hammer
Put the barrel to your head
So you can feel the full weight of
What you fucking did

You have shown
You're a lying, coward bitch
I don't wish you the best
I wish you were dead
Run it fucker
