

Motherfucker

Another blight on this earth that can never seem to make sense  
Another animal that cannot tell the difference  
One nation under savagery  
Biting at the hand that feeds

Hush

Dear child don't breathe  
Stay asleep but don't dare to dream  
A zero sum game is never won by two  
My world of wire and chains  
Binds so tight as to make another slave out of you

All is purging away motherfucker  
Every moral we had burned with our brothers  
Rioting breaking the deafening silence  
Feeding the eyes of a world turn jaded  
It's violence for violence sake

No man above another  
We all must suffer  
Pour the gas  
Light the match and let it burn

False prophets  
Savor the anger  
That they sew pitting man against himself  
We are cannibals eating our fucking young again  
"See no evil"  
Pluck out their eyes

I am just a blight on this earth that can never make sense  
Another animal that cannot tell the difference

Another animal that cannot tell the difference
