

Never Again

Sam Bailey

Said hush now, don't bother me
Shut up, sit down
You acted like you didn't care
You acted like you don't care
It's my life and it's my voice and
I want answers now
I'm calling but your never there
You weren't there

Hey!
I bet you knew I was going in blind
Make the most of an innocent mind
Will never never again
No never never again
I think of you when I'm takin' a bow
Picture your face, take a look at me now
Will never never again
No no never never again

Never never again
No no no no
Never never again
No no no no, never
Never never again
No no no no, never
Never never again

Stop working, there is no talking
Don't dare blame me, it's not my fault, it isn't fair
It's not my fault, it's not fair
No, can't tell you how hard it was
Watchin' all I worked for disappear into thin air
Disappear into thin air

Hey!
I bet you knew I was going in blind
Make the most of an innocent mind
Will never never again
No never never again
I think of you when I'm takin' a bow
Picture your face, take a look at me now
Will never never again
No no never never again

Never never again
No no no no
Never never again
No no no no, never
Never never again
No no no no, never
Never never again
Never never again
Never never again
Never never again
Never never again

I bet you knew I was going in blind

Make the most of an innocent mind
Will never never again
No never never again
I think of you when I'm takin' a bow
Picture your face, take a look at me now
Will never never again
No never never again

Never never again
No no no no
Never never again
No no no no, never
Never never again
No no no no, never
Never never again
Never never again
No no
Never never again
No no, never again
Never never again
No no no no, never
Never never again
