

Sun Above the Clouds

Sam Bailey

Walk with my head held up
Got my eyes open wide
I just stare
Set on a grey backdrop
My problems magnified
I'm [?]

Wanna feel right
Now that I'm alive
Know I'm winning time
It's in the air, air
Feel it in my heart
And every other part
I will see it shine
No, just not yet
Yet!

The higher I am, the taller I stand
The more I could see the sun above the clouds
The less I look back, the clearer the track
The more I could see the sun above the clouds
There's nothing I can do
If I see the sun above the clouds
It's happened I see true end

When I fill my eyes well up
My confidence is gone
Going away
I soak up every drop
Work out where I went wrong
And I swear!

Wanna feel right
Now that I'm alive
Know I'm winning time
It's in the air, air
Feel it in my heart
And every other part
I will see it shine
No, just not yet
Yet!

The higher I am, the taller I stand
The more I could see the sun above the clouds
The less I look back, the clearer the track
The more I could see the sun above the clouds
No, there's nothing I can do
If I see the sun above the clouds
It's happened I see true end

There's got to be more waiting out of sight
I don't want to live an ordinary life, no
I've tasted enough to feed my appetite
That's when I know

The higher I am, the taller I stand
The more I could see the sun above the clouds

The less I look back, the clearer the track
The more I could see the sun above the clouds!
The higher I am, the taller I stand
The more I could see the sun above the clouds
The less I look back, the clearer the track
The more I could see the sun above the clouds
There's nothing I can do
If I see the sun above the clouds
It's happened I see true end...
