**Sam Barber**

My Grandson Sam has been acting real different lately  
Not sure where he's getting these fancy lyrics from, but his mi-  
nd is always on the move  
Used to be on the farm, but now he's lost in his notebook and s-  
trumming his guitar  
Always chasing after new ideas  
His mom says it's just him being creative  
But I can't help but wonder what's going on in his head  
Seems like he's got a restless mind that won't sit still
