

Save Me

Sam Barber

Someone needs to save me
From this awful shape that I'm in
Someone needs to help me
Before I make some more reckless decisions

Well I'll drink it down to the bottom
Just like the direction you were pulling
I've been feelin' lost ever since you up and walked out on me

Lord I gotta get out of this town
Ever since she left I've been a ghost trapped in this house
Lord I gotta leave it all behind
Break out of this prison cell she threw me behind

Often in my head
I try to find the reasons that you left
The more that I obsess
Well it leaves me weak and wondering in my bed
Who will be the last one
On my mind before I leave this world?
When I'm lost and dying
And alone where do I go now?

Well I'll drink it down to the bottom
Just like the direction you were pulling
I've been feelin' lost ever since you up and walked out on me

Lord I gotta get out of this town
Ever since she left I've been a ghost trapped in this house
Lord I gotta leave it all behind
Break out of this prison cell she threw me behind

Someone needs to save me
From this awful shape that I'm in
Someone needs to help me
Before I make some more reckless decisions
