

# Another Day

Sam Brown

It's just another day  
Just another day  
Another day like any other day  
Just another day

We're in another storm  
Just another storm  
Another storm, it washes over me  
Just another storm

Chaos in my mind over matter  
Chatter never ending, time bending  
Buzzing in my head as I stutter  
Clutter contradicting my thinking

And here's another fight  
Just another fight  
Another fight, the blow that knocks you down  
Just another fight

It's just another crash  
Just another crash  
Another crash, the world comes tumbling down  
Just another crash

Madness like a gong, blinding shatter  
Clatter overwhelming, silent screaming  
Insanity is over-riding reason  
Illogical behaviour senseless

It's just another plan  
Just another plan  
Another plan that won't be realised  
It's just another plan

It's just another night  
Just another night  
Another night, you sleep and dream and wake  
It's just another night

Chaos in my mind over matter  
Chatter never ending, time bending  
Buzzing in my head as I stutter  
Clutter contradicting my thinking

Madness like a gong, blinding shatter  
Clatter overwhelming, silent screaming  
Insanity is over-riding reason  
Illogical behaviour senseless

It's just another day  
Just another day  
Another day like any other day  
Just another day

It's just another night  
Just another night

Another night, you sleep and dream and wake  
Just another night
