

# Let Go Move On

Sam Brown

Shedding tears over broken memories  
All those years lost in fear  
All those friends that have been and gone  
You can't live this life more than once

Let go move on, like a river and a stream  
You've got to move on, like the wind and the rain  
Nothing stays the same  
We're all here, we're all there, we're all everywhere

Broken dreams, tears for yesterday  
Today is today and not yesterday  
I've seen life and dear friends die  
It's all coming to us in the end

Let go move on, like a river and a stream  
You've got to move on, like the wind and the rain  
Nothing stays the same  
We're all here, we're all there, we're all everywhere

Depression can grip and take a hold of me  
And lead me into my dark side  
Where nothing seems right and all seems wrong  
And life doesn't deal the cards I want  
I'm not the director of the stage of the world  
I don't know who is but it ain't me  
I look at the sun, the stars and the sun you see  
The beautiful trees and flowers around me

Let go move on, like a river and a stream  
You've got to move on, like the wind and the rain  
Nothing stays the same  
We're all here, we're all there, we're all everywhere
