

Marionette

Sam Brown

Another crisis is now where my life is
It's not where I want it to be
You say it's tragic, but gone is the magic
We had it but now I gotta leave

It's time to grow up, before I blow up
Cause I've been so up myself I can't see
We've all got our views on the air in the news so confused
I should listen to me

Gotta get up, get out, get on with it
Don't wanna be a marionette
Cut the ties and the noose
It's better for me, better for you
Gonna get a life to live
I wanna take and I wanna give
Gone the lie hear the truth
It's better for me, better for you

Another drama descends is it karma
That sending my brain round the bend
You say it's dumb, but my senses are numb
I'm so through with listening to you

It's time to grow up, before I blow up
Cause I've been so up myself I can't see
We've all got our views on the air in the news so confused
I should listen to me

Gotta get up, get out, get on with it
Don't wanna be a marionette
Cut the ties and the noose
It's better for me, better for you
Gonna get a life to live
I wanna take and I wanna give
Gone the lie hear the truth
It's better for me, better for you

Gotta get up, get out, get on with it
Don't wanna be a marionette
Cut the ties and the noose
It's better for me, better for you
Gonna get a life to live
I wanna take and I wanna give
Gone the lie hear the truth
It's better for me, better for you
