

No Limitations

Sam Concepcion

The stars will shine even on a cloudy night.
Your smiles will light up the sky ain't no like girl
You and I should be together
We'll make this last forever.

You know this love thing gets harder
It's complicated just gotta do it right
We gotta push up it further
Cause we got nothing to loose baby

I could just take this chance to love you girl
Comes once in a lifetime, No Limitations
Take it to higher level
Floating on cloud 9, No Limitations

No need to hurry
Baby just take it slow
And all of your worries
You gotta let it go

You know this love thing gets harder
It's complicated just gotta do it right
We gotta push up it further
Cause we got nothing to loose baby

I could just take this chance to love you girl
Comes once in a lifetime, No Limitations
Take it to higher level
Floating on cloud 9, No Limitations

I could just take this chance to love you girl
Comes once in a lifetime, No Limitations
Take it to higher level
Floating on cloud 9, No Limitations

Oh oh oh girl
Promise I'll be good to you
Oh girl
Cause we got nothing to loose

I could just take this chance to love you girl
Comes once in a lifetime, No Limitations
Take it to higher level
