Blinded By Love

Sam & Dave

Blinded by love
I can't see the morning sun
Blinded by love
I can't see what the day has done

Never meant to hurt, never meant to harm
Never meant to get involved
Never meant to hurt, never meant to harm
Never meant to get involved

Blinded by love
I can't see the morning sun
Blinded by love
I can't see when the day is done

Look, look around the corner, what do I see?
Great big stone wall staring at me (Yeah)
Look over yonder (Say it), what do I see?
Great big wide world staring at me
Well, I was leaving here last summer, my friends told me to stick around
Though the summer breeze was at my knees and I stayed in this little old tow
n
Winter rolls around, freezin' up my brain
Sayin' you'd better leave this town before you go insane

Summer didn't lie, winter didn't lie
Son, you gotta get away
Summer didn't lie, winter didn't lie
Son, you gotta say goodbye

Oh, it's got to be alright
It's gonna be alright, well
You know it's gonna be alright
Hey!

Blinded by love
Yeah

Well, I fell in love last summer, she begged me to stay
It was just a matter of time and girl was gone away
Tears on my pillow, sad, broke and shy
I wanna drink the water, but the well's gone dry
Look around the corner, what's do I see?
A great big stone wall staring at me
Look over yonder, what's do I see?
A great big wide world staring at me

Summer didn't lie, winter didn't lie
Son, you gotta get away
Summer didn't lie, winter didn't lie
Son, you gotta say goodbye, ah

Oh, it's gonna be alright
It's got to be alright
Blinded by love, hey, hey

Blinded by love

I can't see the morning sun
Blinded by love
I can't see when the day is done
Blinded by love, blinded by love
I can't see the morning sun
Blinded by love, blinded by love, blinded by love
I can't see when the day is done
