

## Can't You Find Another Way (Of Doing It)

Sam & Dave

You hurt me when you told me you will never be mine  
Soon the day will roll around when I'll see you my last time  
The one you really love will soon be comin' home  
And I'll be the one you left standin' all alone

Can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?  
Ooh yeah, never, never found no, nobody, little girl  
that I've been lookin' for, can't you find another way?

Look, I'll do my very best to get over you  
But deep down in this heart of mine, I know it ain't no use  
It'll be like fightin' an army with my bare hands  
Knowin' all the time that I'm on the losin' end

Ooh, can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?  
Ooh no, never, never found no, nobody, everything little girl  
Everything that I've been lookin' for, can't you find another way?

Ooh, get it, get it

Oh, we've gone a little too close for you to step out now  
Don't you know, if you leave me, baby, you're surely gonna tear  
me down

Can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?  
Can't you find another way, can't you find hey hey, oh another  
way?

Can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?  
Can't you find another way of doin' it baby, can't you?
