

Come Into My Life

Sam & Dave

Come into my life, come into my life
Come into my life, oh baby
Come in today (Come on in), come in to stay (Come on in)
Come into my life, oh baby

The first time that I met you, I knew I had to make you mine
And when I kissed you, I knew I want you all the time

Don't need no sympathy, all I need's your love for me
Tell me now, how to make you happy, oh baby

Come into my life, come into my life
Come into my life, oh baby
Come in today (Come on in), come in to stay (Come on in)
Come into my life, oh baby

Hold me and fold me, anyway into your will
Bend me and shape me, babe, as long as you love me still

Don't need no sympathy, all I need's your love for me
Tell me now, how to make you happy, oh baby

Come into my life, come into my life
Come into my life, oh baby
Come in today (Come on in), come in to stay (Come on in)
Come into my life, oh baby
Come into my life, come into my life
Come into my life (Come on in), come into my life ('Cause I love you so)
Come into my life (Oh baby), come into my life (Come into my life)
Come into my life (I love you so), come into my life (Oh, yes, I do)
Come into my life (Oh), come into my life (Come into my life)
Come into my life (Oh), come into my life (Come into my life)
