

Talk to the Man

Sam & Dave

I know you need someone to turn to
Your other love wasn't so good for you
Girl just let me, I'll solve all of that
Take my hand
Let me show you where it's at

Oh but you got to talk to the man
The things I don't know help me understand
You got to come on and talk to the man
Let me know your good loving is in my hands

Just sit down
And let me make you comfortable
Come lift your head
Tell me about your troubles
He didn't love you girl, but I will
Gonna give you love but that's sure for real

Oh but you got to talk to the man
The things I don't know help me understand
You got to come on and talk to the man
Let me know your good loving is in my hands

No girl like you's got no business crying
See you smiling there
Honey you know I ain't lying
You doing things you're not used to
Could it be you
Like what I'm doing for you yeah

Just sit down
And let me make you comfortable
Come lift your head
Tell me about your troubles
He didn't love you girl, but I will
Gonna give you love but that's sure for real

Oh but you got to talk to the man
The things I don't know help me understand
You got to come on and talk to the man
Let me know your good loving is in my hands

Talk to the man, talk to the man
Talk to me, 'cause I'm that man
Talk to me, I'll understand
Talk to me, I wanna give you my heart
