

Alive (The Edge)

Sam Feldt

Ages will fold
Nobody wants to grow old
Don't think
Just go harder than light to the shore

We're standing on the edge, we're up so high
Falling like a bird learning to fly
So come on take my hand for just tonight
Let us show the world that we're alive
That we're alive

Hold tight, let go
Follow the wind to the shore
And don't think, just go
Everyone needs to know

We're standing on the edge, we're up so high
Falling like a bird learning to fly
So come on take my hand for just tonight
Let us show the world that we're alive
That we're alive

So darling don't worry
Yeah, you'll be safe with me
So darling don't worry
Yeah, you'll be safe with me
Cause you and I
You and I (you and I)
You will fly (you and I)
You and I (you and I)
You will fly (you and I)
You and I (you and I)
You will fly (you and I)
You and I (you and I)

We're standing on the edge, we're up so high
Falling like a bird learning to fly
So come on take my hand for job tonight
Let us show the world that we're alive
That we're alive
