

# Enough To Drink

Sam Feldt

Did you drink enough to miss me  
Or did you miss me enough to drink?  
Did you mean it when you kissed me?  
Hope you missed me enough (missed me enough)

Hand me the bottle  
Let's drink up tonight, got your  
Hands on the throttle  
Drive us back in time

'Till we're just kids again  
Lost, broke and innocent  
Yeah when you hand me the bottle  
I got one thing on my mind

Did you drink enough to miss me  
Or did you miss me enough to drink?  
Did you mean it when you kissed me  
Or was I just another fling?  
And am I on your mind like all the time, like you're on mine  
Said you weren't, but I lie, baby, I  
Hope you meant it when you kissed me  
Hope you missed me enough, missed me enough to drink

Missed me enough to drink  
Missed me enough to drink

Play me that one song  
That I used to like, and we'll  
Sing every word wrong  
And laugh through the night  
'Till it's past 4am  
We'll become us again  
Yeah when you, play me that one song  
I got one thing on my mind

Did you drink enough to miss me  
Or did you miss me enough to drink?  
Did you mean it when you kissed me  
Or was I just another fling?  
And am I on your mind like all the time, like you're on mine  
Said you weren't, but I lie, baby, I  
Hope you meant it when you kissed me  
Hope you missed me enough, missed me enough to drink

Missed me enough to drink

And am I on your mind like all the time, like you're on mine  
Said you weren't, but I lie, baby, I  
Hope you meant it when you kissed me  
Hope you missed me enough, missed me enough to drink

Did you drink enough to miss me  
Or did you miss me enough to drink  
Did you mean it when you kissed me  
Or was I just another fling?  
And am I on your mind like all the time, like you're on mine

Said you weren't, but I lie, baby, I  
Hope you meant it when you kissed me  
Hope you missed me enough, missed me enough to drink
