

Gold, gold

In the shell the water's fine
Don't wanna leave the old behind
If it's not now, give it time
Everybody has to cross the line
Thoughts and prayers, but not enough
It's battle scars that make us tough
Bend the wood and build the ships
Say farewell with a widow's kiss

Come with me darling
Let's go down the secret road
Where the unknown is all we know
Lay with me darling
Let's sleep beneath another sky
Where every story we told

Turns to gold, gold
Turns to gold

A promise made, but will it keep?
When the cold keeps us from sleep
With neon targets in our reach
Build the waters to taste the sweet

Come with me darling
Let's go down the secret road
Where the unknown is all we know
Lay with me darling
Let's sleep beneath another sky
Where every story we told

Turns to gold, gold
Turns to gold, gold

Come with me darling
Let's go down the secret road
Where the unknown is all we know
Lay with me darling
Let's sleep beneath another sky
Where every story we told
Come with me darling
Let's go down the secret road
Where the unknown is all we know
Lay with me darling
Let's sleep beneath another sky
Where every story we told

Turns to gold, gold
Turns to gold, gold

Gold, gold
