Hide & Seek

Sam Feldt

We can play hide and seek
So you can find your way back to me
We've been waiting so quietly
We can play
And we can play

Remember staying up, waiting for the sun
Making mistakes, man, yeah, we were young
Underneath the stars, just you and me
We promised each other we would never leave

Five years, I know it's been too long
But I heard you're back for the summer
Shine for me, let's light up the dark tonight

And we can play hide and seek
So you can find your way back to me
We've been waiting so quietly
We can play
And we can play
Hide and seek

(Underneath the stars
Just you and me
Underneath the stars
Just you and me
Underneath the stars
Just you and me)
Play hide and seek

Remember carving our names into that tree
Wonder if it's still there, hidden in the leaves
Close my eyes and I'll count down from ten
I know you'll be back, be back again

Five years, I know it's been too long
But I heard you're back for the summer
Shine for me, let's light up the dark tonight

And we can play hide and seek
So you can find your way back to me
We've been waiting so quietly
We can play
And we can play
Hide and seek

(Underneath the stars
Just you and me
Underneath the stars
Just you and me
Underneath the stars
Just you and me)
Play hide and seek

We can play hide and seek
And we can be who we used to be
We can light up the streets

We can play
And we can play
Hide and seek
