

# House For Kings

Sam Feldt

(Don't know that about you)  
(Don't know that about you)

Nothing lasts forever  
I'm a sucker altogether  
I'm an open door  
I'm over the attention  
Take me to a new dimension  
Never been before

Yeah your touch is so dramatic  
Coming over, it was tragic  
I'm an empty page  
Now the talk is getting smaller  
And there's no amount of dollars  
That'll make you stay

This silence is pulling me under  
Your mind's going places that I can't see  
I can't stand the thought of another  
But they could never be me 'cause

I got a million rings and a house for kings  
But it don't mean nothing, it don't mean nothing  
Got a fancy car in the driveway now  
But it don't mean nothing if I don't have you with me, you with me  
Don't know that I've got you with me, you with me  
Don't know that I've got you with me, you with me  
Don't know that about you  
Don't know that about you

I'm sicker than the season  
Change my mind for any reason  
It's the game we play  
My heart is in my [?]  
I'm too high to let it show  
No, I would never say

This silence is pulling me under  
Your mind's going places that I can't see  
I can't stand the thought of another  
But they could never be me 'cause

I got a million rings and a house for kings  
But it don't mean nothing, it don't mean nothing  
Got a fancy car in the driveway now  
But it don't mean nothing if I don't have you with me, you with me  
Don't know that I've got you with me, you with me  
Don't know that I've got you with me, you with me  
Don't know that about you  
Don't know that about you

This silence is pulling me under  
Your minds going places that I can't see  
I can't stand the thought of another  
But they could never be me

I got a million rings and a house for kings  
But it don't mean nothing, it don't mean nothing  
Got a fancy car in the driveway now  
But it don't mean nothing if I don't have you with me, you with me  
Don't know that I've got you with me, you with me  
Don't know that I've got you with me, you with me  
Don't know that about you  
Don't know that about you
