

Know You Better

Sam Feldt

(Better, better...
Know you better
Better, better...
Underneath your clothes)

I wait for your signal
You know I can't reach your mind
You're some kind of radar
That I can't figure out

You're so mysterious
I like you dangerous
Yeah, I'm goin' crazy
I'm so delirious
It must be serious
Yeah, I'm goin' crazy

You just make me feel good
Boy, I think that I would
Like to get to know you better, know you better
Whatever you believed in
We can make it ideal
I just want to know you better, know you better
Underneath your clothes

Better
Know you better, know you better
Better

A beautiful devil
Ready to strip me down
Yeah, you make me feel special
Just take me off the ground

You're so mysterious
I like you dangerous
Yeah, I'm goin' crazy
I'm so delirious
It must be serious
Yeah, I'm goin' crazy

You just make me feel good
Boy, I think that I would
Like to get to know you better, know you better
Whatever you believed in
We can make it ideal
I just want to know you better, know you better
Underneath your clothes

Better
Know you better, know you better
Better
Underneath your clothes
Better
Know you better, know you better
Better

(Better, better...
Know you better
Better, better...
Whatever you believed in
Better better...
Know you better
Better, better...)

You just make me feel good
Boy, I think that I would
Like to get to know you better, know you better
Whatever you believed in
We can make it ideal
I just want to know you better, know you better
Underneath your clothes

Better
Know you better, know you better
Better

You just make me feel good
Boy, I think that I would
Like to get to know you better, know you better
Whatever you believed in
We can make it ideal
I just want to know you better, know you better
Underneath your clothes

(Better, better...
Know you better
Better, better...
Underneath your clothes)
