Lost On Me

Sam Feldt

I don't know how to speak what I wanna say
I write it on a page and send it on its way
So why when you were lost, did you decide to leave?
You said it was out of love, but it was lost on me
Come here to find a heart waiting in the winds
And sheltered from the wind
Why, when you hear the dark, you leave with everything
When all you need is here?

On me, lost on me, lost
I've been thinking that it's lost on me
On me, lost on me, lost
I've been thinking that it's lost on me

I think you're out of luck, was never far away
When you think you've had enough, you'll find a way
So every time you're lost and you decide to leave
You say it's out of love, but it's lost on me

On me, lost on me, lost
I've been thinking that it's lost on me
On me, lost on me, lost
I've been thinking that it's lost on me

So every time you're lost and you decide to leave
You say it's out of love, but it's lost on me
