

Madness

Sam Feldt

When the day has just begun
There's a war inside my head that can't be won
Lord, heavens know I've tried
But I'm a lonely soul on a broken road tonight

When my heart feels heavy
And my dreams, they scare me
You stop the madness
You stop of the madness

When my feet, they fail me
And my mind's not steady
You stop the madness
The madness in me

Oh, the madness in me
Oh, now I can see
Oh, the madness in me

You stop the madness
You stop the madness

When the world is on my mind
And I feel a little numb, but I don't know why
When it's hard to carry on
I remember what you told me
That it won't last long

When my heart feels heavy
And my dreams, they scare me
You stop the madness
You stop the madness

When my feet, they fail me
And my mind's not steady
You stop the madness
The madness in me

Oh, the madness in me
Oh, now I can see
Oh, the madness in me

You stop the madness
You stop the madness

Oh, the madness in me
Oh, you stop the madness
The madness in me

Oh, the madness in me
Oh, now I can see
Oh, the madness in me

You stop the madness
You stop the madness

When my heart feels heavy

And my dreams, they scare me
You stop the madness
You stop of the madness

When my feet, they fail me
And my mind's not steady
You stop the madness
The madness in me
The madness in me
