

Runaways

Sam Feldt

Hey, little darling
I'm gonna take you outta the darkness
I wanna walk with you in the light and hold your head high

Hey, little darling
We better go before it is too late
Sneak out the window and down the fire escape
Hold my hand tight

'Cause we're just run, run, runaways
Run, run, renegades
Run, run to get away

And we just run, run because we ain't
Givin' it up now to get away
Always a haunted place

Oh, and you and I are the ghosts
Now I wanna take you home
But we're just run, run, runaways
Run, run, renegades
Nowhere, I couldn't stay

Hey, little darling
No we're not welcome here in this party
They're lookin' through us like uninvited
Hold your head high

'Cause we're just run, run, runaways
Run, run, renegades
Run, run to get away

And we just run, run because we ain't
Givin' it up now to get away
Always a haunted place

Oh, and you and I are the ghosts
Now I wanna take you home
But we're just run, run, runaways
Run, run, renegades
Nowhere, I couldn't stay

Oh, and you and I are the ghosts
Now I wanna take you home
But we're just run, run, runaways
Run, run, renegades
Nowhere, I couldn't stay
