

Start Again

Sam Feldt

If time can't bend
Why're we worrying?
When we get this wrong
We just start again

I see us on a different level
To how we used to be
Know I've been yours and I've been jealous
We'd hurt each other, I'll repeat
No I don't remember the hours
I didn't want you around
So, maybe we're the opposites they talk about

If time can't bend
Why're we worrying?
If we get this wrong
We just start again
If the past is the past, we gotta let it go
'Cause the next what's calling
And if it sends us wrong
We can just start again

I put me on a six or seven
To be and know that I can be
If heaven's 12, you'd be 11
But it's close enough for me
It's falling now I've taken one nearly
Let it only sleep away
Then maybe we're just meant to fight another day

If time can't bend
Why're we worrying?
If we get this wrong
We just start again
If the past is the past, we gotta let it go
'Cause the next what's calling
And if it sends us wrong
We can just start again

If time can't bend
Why're we worrying?
When we get this wrong
We just start again
When the good night's back
Let the merry sun in
If we get this wrong
We can just start again
