

World Can Wait

Sam Feldt

Can't turn around now
We ain't got much to go
To an island we call home now
Haven't found yet
What we're looking for
But we ain't gonna stop now

And we're tougher when the wind blows
We'll be riding the storm, just riding the storm now
To get to where we wanna go
We'll be riding the storm, just riding the storm now

Let's take our time 'cause
The world can wait, the world can wait
Let's take our time 'cause
The world can wait, the world can wait
Haven't got the money, but we ain't no [?]
Let's take our time 'cause
The world can wait, the world can...

Wait, the world can
The world can wait, the world can
Wait, the world can
The world can wait, the world can
Wait, the world can
The world can wait, the world can
Wait, the world can
The world can wait, the world can

Go to riptide, we'll be rolling like stones
We have fire in our bones
Every moment we live life how we know
Make it our show

And we're tougher when the wind blows
We'll be riding the storm, just riding the storm now
To get to where we wanna go
We'll be riding the storm, just riding the storm now

Let's take our time 'cause
The world can wait, the world can wait
Let's take our time 'cause
The world can wait, the world can wait
Haven't got the money, but we ain't no [?]
Let's take our time 'cause
The world can wait, the world can...

Wait, the world can
The world can wait, the world can
Wait, the world can
The world can wait, the world can
Wait, the world can
The world can wait, the world can
Wait, the world can
The world can wait, the world can
