

Call Me Lover

Sam Fender

You know I'll be down here waiting
I'll take you to see your man
When you are done, we go driving
Catch the coast in the evening light

These things we're taking
Make us run our mouths but we never say anything

I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
Ooh, lover
Ooh, lover

I tell and the lies are changing
You're spreading it all too thin
She give me those eyes when her man's in plain sight
Or am I just mistaken?

These things we're taking
Make us run our mouths but we never say anything

I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
Ooh, lover
Ooh, lover

We will break under circumstance in the heat of it all
Can ya take all the pressure that is left behind?

I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
Ooh, lover
Ooh, lover

I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
I love it when you call me "lover"
Ooh, lover
Ooh, lover

Ooh, lover
