

# Ready

Sam Fischer

Please just tell me if I'm wrong  
Why are you stringing me along?  
I'm doing my best to get you out my head  
But it's been going on for too long

I hope that you're happy  
I know that you can be  
'Cause no one's gonna love you like I'll love you if you let me  
This isn't healthy  
Nothing can help me  
'Cause no one's gonna you like I'll love you if you let me  
Tell me when you're ready, ready  
Tell me when you're ready, ready

I don't wanna keep pretending  
That you and me are only friends  
I know you feel the same but nothing ever changes  
And I can't do this all again

I hope that you're happy  
I know that you can be  
'Cause no one's gonna you like I'll love you if you let me  
This isn't healthy  
Nothing can help me  
'Cause no one's gonna you like I'll love you if you let me  
Tell me when you're ready, ready  
Tell me when you're ready, ready

Just say when (Just say when)  
'Cause it hurts to know I've done all I could do  
Oh just say when (Just say when)  
'Cause I'm running out of ways to say to you

I hope that you're happy  
I know that you can be  
'Cause no one's gonna you like I'll love you if you let me  
This isn't healthy  
Nothing can help me  
'Cause no one's gonna you like I'll love you if you let me

I know we'd be happy  
I know what we can be  
'Cause no one's gonna you like I'll love you if you let me  
Tell me when you're ready, ready  
Tell me when you're ready, ready

Tell me when you're ready, ready  
Tell me when you're ready, ready
