

Locked Up

Sam Hunt

I got locked up
I was in a young, dumb, rowdy phase
Still hangin' on to my bachelor days
You were still prayin'
For me to start changin' my ways

Thirty years old and still actin' a fool
Damn near the same kid you met back in school
I thought I might have lost you
Yeah, I thought it might have cost me
The love and the light of my life

The night I got locked up
Everything went wrong
The night I got messed up
Should've just stayed home
Picked up my phone
What can I say
I thought that you'd walk away

But you stood by your man
Tammy Wynette
It hit the fan
You could've just quit
Nah, but you showed me love
You didn't go when the goin' got tough
The night I got locked up

I remember how you looked like your name
You finally gave it to me after the game
We floated on the breeze
For like a year and and some change

I knew you were down for me back when we met
But I didn't know how down for me you'd really get
When you picked up my pieces and my only call
I knew you were in, baby, in for the long haul

The night I got locked up
Everything went wrong
The night I got messed up
Should've just stayed home
Picked up my phone
What can I say
Well, I thought that you'd walk away

But you stood by your man
Tammy Wynette
It hit the fan
You could've just quit
Nah, but you showed me love
You didn't go when the goin' got tough
The night I got locked up
The night I got locked up

Girl, you forgave me for my sins
You put it down and you ain't brought it up since

I knew that I was done
I knew you were the one
Yeah-yeah-yeah-yeah

The night I got locked up
Everything went wrong
The night I got messed up
Should've just stayed home
Picked up my phone
What can I say
Well, I thought that you'd walk away

But you stood by your man
Like Tammy Wynette
It hit the fan
You could've just quit
Nah, but you showed me love
You didn't go when the goin' got tough
The night I got locked up

But you stood by your man
