Smile

Sam Kim

I love the way you shine
Looking at me with those eyes
I can't explain, you driving me crazy with that smile

You always thinking, I lie
And my heart don't stop denying
(Baby) I love the way you thinking
I love the way you fuckin smile

No baby you won't be here to rush
Baby you won't be here to crush
Or here and now
Or here and now

No you won't be here tomorrow
Till then don't be sad and sorrow
Here and now
Or here and now

You got me thinking thinking about
You got me thinking thinking about

(Baby) I love the way you thinking
The way that you be looking
Baby love the way you glowing shine for me

So you love the way you think about my love
Yeah you got me thinking bout your eyes your lips
And the way I make her smile and how we used to say
Right now don't change a thing

I love the way
No doubt it

I love the way you fuckin smile
