

# Give Me Hell

Sam Nelson

Say it  
Out loud  
It only hurts for a second  
Just spit it out  
Right now  
You smile  
But I know  
You can't hide your weapons  
It only takes a second...

Come on say it  
Say what you really mean  
I can take it  
It's better if we both come clean  
I wanna fight it out in the open  
Can't go on if you hold back now  
So if you love me, give me hell

You chain-smoke  
In the backyard  
I smell it on your sweater  
While I sit  
In my car  
We can't keep  
Going on  
Leaning on forever  
Hoping things get better

Come on say it  
Say what you really mean  
I can't take it  
It's better if we both come clean  
I wanna fight it out in the open  
Can't go on if you hold back now  
So if you love me, give me hell  
If you love me, give me hell

Oooo ohh  
Oooo ohh  
Oooo ohh

If you love me, give me hell  
If you love me, give me hell  
Cuz if I can feel the fight in you  
Maybe I'll feel it in myself  
If you love me, give me hell  
If you love me, give me hell
