When Love Has Gone

Sam Nelson

Where do we go when love has gone?
Where do we go when love has gone?

Light bulbs going off
Those are mighty big words you said
My spidey-sense is telling me
I should prepare for the worst

I try not to run from it
I'll say it first
I'm trying not to let this flame burst

Jesus Christ
It's like I'm going insane
I've made gestures and overtures
That blew up in my face
I know it's nobody's fault right
Like people just change
But maybe somehow
We could change the same

And I said
Fuck it, let's work it out
Cuz I love you
For whatever that's worth
And I've never seen it work
But I want to make it work

Where do we go when love has gone?
Where do we turn when the lights turn off?

Signals are lost
Wires we crossed
Turn your location on
Where do we go when love has gone?

Bless this mess
I guess it's hard to explain
It's like communication break-down
Now, every goddamn day
I'm getting thinner around the edges
Baby, paper-mache
It's getting harder and harder
To feel okay

And I said
I'm tryin' to work it out
Cuz I love you
For whatever that's worth
And I never seen it work
But I want to make it work

Where do we go when love has gone?
(Gone, gone, gone, gone)
Where do we turn when the lights turn off?
(Off, off, off, off)

Signals are lost
Wires we crossed
Turn your location on
Where do we go when love has gone?
(Gone, gone, gone, gone)

It's gone
(Gone, gone, gone, gone)
Gone
(Gone, gone, gone, gone)

Light bulbs going off
Those are mighty big words you said
Something in me is telling me
I should prepare for the worst

I try not to run from it
I'll say it first
I'm trying not to let this flame burst
