

You never have to speak a word to say it
The smile that you're faking I can read it
I've got you pegged I've got your number
I've got you pegged I've got your number

When you feel the madness know you're not alone
When you hit a dead end I'll get you back on the road
No I can't take the pain away but baby I can ease it
Don't you know we're in the same boat
I know how you feel I'll keep your heart beating
I'll keep your heart beating
Keep your heart beating

The monkey on your back has got you crawling
You're Jericho and all your walls are falling
I'll put your broken pieces together
I'll put your broken pieces together

When you feel the madness know you're not alone
When you hit a dead end I'll get you back on the road
No I can't take the pain away but baby I can teach ya
Don't you know we're in the same boat
I know how you feel I'll keep your heart beating
I'll keep your heart beating
Keep your heart beating

B.O.A.T bon voyage mes amies
B.O.A.T sayonara enemies
B.O.A.T bon voyage c'est la vie
B.O.A.T come on sail away with me
We've been around the world in your little blue boat
Just me and you and your rainbow coat
A little black cat and a little white lie
We'll never grow up and we're never going to die
B.O.A.T bon voyage mes amies
B.O.A.T sayonara enemies
B.O.A.T bon voyage c'est la vie
We'll never grow up and we're never gonna die

When you feel the madness know you're not alone
When you hit a dead end I'll get you back on the road
No I can't take the pain away but baby I can teach ya
Don't you know we're in the same boat
I know how you feel I'll keep your heart beating
I'll keep your heart beating
Keep your heart beating
Keep your heart
